

## Take the first step towards a life-changing job in IT

With the support of your Tech Foundry classmates and our committed staff, you can build upon your passion for technology and career growth in a local, no cost training and job placement program.

### About Us

Tech Foundry offers a fee-less IT workforce training program open to all Western MA residents. We offer hands-on learning, networking opportunities with professionals and employers in the field, internships, and potential job placements.

Through our efforts, we are working to close the gender and diversity gaps in tech and give under-represented groups access to economic opportunities.

### About The Program

Experts teach Tech Foundry participants the fundamentals of **Windows administration, computer networking, endpoint security, and career readiness and leadership.**

When you graduate you will also receive a **Google IT Support Certificate** through our partnership with Grow with Google – plus the opportunity to earn a **CompTIA A+** certification at a deep discount.

### About You

- Excited to learn in a program with awesome colleagues
- Can commit to the 18-week program
- 18+ with a high school diploma or GED equivalent
- Passionate about technology
- Have basic computer skills

Women, veterans, members of BIPOC and LGBTQ+ communities are encouraged to apply!
